Amphitune Privacy Policy

Last updated: 7 October 2026 · Version 1.0 (MVP)

1. Controller

The controller of your personal data is [Company name] Oy, a Finnish limited liability company (Osakeyhtiö), Business ID [Business ID], [Address], contact: [Contact email] (“we”, “us”). This policy explains what data Amphitune collects, why, and your rights under the EU General Data Protection Regulation (GDPR) and Finnish data protection law.

2. Data We Collect

We aim to store as little as possible. We never store your email, password or other Audius profile data in our database.

- • Users: Audius user ID, date of registration, the date you last accepted the Terms of Service and Privacy Policy, and up to three external links you choose to provide.
- • Tracks: Audius track ID, author ID, genre, mood tags and creation date.
- • Likes and reposts: which user liked or reposted which track.
- • Play events: track ID, listener ID (if logged in) and the time the play was counted. A play is counted after 15 seconds of listening.
- • Subscriptions (not yet available): current period start and end, and Stripe customer ID.

When you log in, Audius provides us with your Audius ID, handle and username through OAuth. Of these we store only the Audius ID in our database; the handle and username are held only in your authentication cookie (see Section 7).

3. Why We Use Your Data

- • To provide the Service: authenticating you, showing feeds, counting plays and unique listeners, and recording likes, reposts and your tracks. Legal basis: performance of a contract (Art. 6(1)(b)).
- • To prevent abuse and manipulation of plays and counts, and to secure the Service. Legal basis: legitimate interests (Art. 6(1)(f)).
- • To process payments and meet accounting obligations once subscriptions launch. Legal bases: contract and legal obligation (Art. 6(1)(b), (c)).
- • To show advertising among feed entries. Legal basis: legitimate interests, or consent where required by law (Art. 6(1)(f), (a)).
- • To prove that you accepted our Terms and this policy. Legal basis: legitimate interests / legal obligation.

We do not sell your personal data and do not use it for profiling or automated decisions with legal effects.

4. Retention

- • Play events: 90 days, then deleted.
- • Account data, tracks, likes and reposts: until you delete your account.
- • After account deletion: your data is marked as deleted and removed by our cleanup process at the latest within 90 days.
- • Billing records (when available): kept as long as required by Finnish accounting law.

- • Stream tokens: deleted the moment a play is counted.

5. Who Receives Your Data

- • Audius: provides login and hosts the audio. Audius processes your data under its own terms and privacy policy.
- • Stripe (when subscriptions launch): processes payments. Card details go directly to Stripe and are never stored by us.
- • Hosting and infrastructure providers: [provider names] process data on our behalf under data processing agreements.
- • Advertising providers: [provider names / to be confirmed], who may use cookies or similar technologies as described in their own policies.
- • Authorities, where required by law.

Where data is transferred outside the EU/EEA, we ensure appropriate safeguards such as the European Commission's Standard Contractual Clauses or an adequacy decision.

6. Your Rights

You have the right to:

- • access the personal data we hold about you;
- • have inaccurate data corrected;
- • have your data erased (you can delete your account at any time);
- • restrict or object to processing based on legitimate interests;
- • data portability, where applicable;
- • withdraw consent at any time, where processing is based on consent.

To exercise your rights, contact us at [Contact email]. You also have the right to lodge a complaint with the Finnish Data Protection Ombudsman (tietosuojavaltuutettu), www.tietosuoja.fi.

7. Cookies and Local Storage

The following cookies are strictly necessary for the Service to function:

- • Anonymous session: a cookie containing a single random UUID, used when counting plays by users who are not logged in. Critical for the Undiscovered feed for logged-out users.
- • Authenticated session: a JSON Web Token (JWT) containing your Audius ID, handle, username and limited subscription details that are safe to show publicly (tier, period start and end, whether canceled). Critical for authentication.
- • Stream token: issued before a stream starts; contains the track ID, the time the stream started and the time at which a play can be counted. Used to prevent abusive play counting and deleted when the play is counted.

Local storage: when you select a genre or mood in the filter, the selection is saved on your device so it persists between page reloads. It is not sent to us and can be cleared in your browser settings.

Advertising providers may set additional cookies. Where required, we will ask for your consent before they are used.

8. Children

Amphitune is not intended for children under 13, and we do not knowingly collect data from them. If you believe a child under 13 has an account, contact us and we will delete it.

9. Security

We use appropriate technical and organisational measures to protect your data, including encrypted connections and minimal data storage. No system is completely secure; in the event of a data breach that affects you, we will notify you and the authorities as required by law.

10. Changes to This Policy

We may update this policy. We will notify you of material changes in the Service in advance where possible, and may ask you to accept the updated policy. The date of your latest acceptance is stored.
